

Objects

The Society was formed in 1959 and has among its objects:-

".....the securing of protection from disfigurement or injury the countryside and amenities of the parishes of Hitcham and Taplow"

The Society therefore scrutinises many Planning Applications and appeals and then supports or opposes them. It also gives evidence at Local Planning Inquiries.

Projects

The Society has been involved in many projects, some of which are continuous; examples include:-

Gravel - collecting facts and presenting evidence opposing Appeals about extracting gravel.

Aircraft Noise - continuous monitoring including arranging a public meeting which successfully contributed to the decision to re-route aircraft away from us.

Conservation Areas - advice to Local Authority about enlarging the Taplow Conservation Area.

Bapsley Pond - arranging for and helping at clearing this 1,300 year old pond.

In addition the Society is the focus of much local opinion; efforts are constantly made to improve and maintain our environment whether it is rescuing flower beds at the railway station or replacing diseased trees.

Membership

As a member you would be entitled to vote and air your views at Annual & Special General Meetings and you would receive the periodic Newsletters reporting the Society's activities. You will not be required to take part in projects, but your help would be much appreciated.

PLEASE JOIN NOW

Please complete, tear off and send off the Application Form opposite.
